THE HAPPY SPOT

In the beloved tale, Peter Pan and the fairy Tinkerbell take us to *Neverland* where they look after *The Lost Boys*. It's a similar story to that of Twinkelbel. Vibrant people who have intellectual disabilities work in this colorful shop with its own coffee corner. They create handcrafted ceramics, cards and other original gifts that would be perfect for anyone. Step into this wonderful world.

WHAT MAKES US HAPPY HERE?

The twinkle in the eyes of everyone who works here. The spontaneous tour around the shop that you might get. The care that goes into the craftwork. Concentration, skill, friendliness and a unique style. Cooperation, respect and creativity are paramount here. What a special atmosphere.

THE HAPPINESS TIPS

- Who do you want to surprise with **a special gift**? Purchase a hand-crafted card or an original gift. Add a personalized message to it.
- People with intellectual disabilities are more extreme in everything – sweetness, anger, sadness ... but always very pure and sincere. They have no hidden agenda. Start up **a conversation** with one of the employees and let them surprise you. The coffee corner is the perfect place.
- Twinkelbel is a part of Lunet Zorg. They “support people by reinforcing their strengths.” Name a **strength** that you possess. How could you reinforce it? Who would support you in that?

EVEN MORE HAPPINESS

With great pleasure and enthusiasm, the employees will customize the ceramic paintings to your wishes. Order a personalized gift for someone who holds a special place in your heart.
